PROFILE

Software developer with 2+ years of experience building websites with React, Svelte, TypeScript, Vite.js, Next.js and TailwindCSS. Skilled in automating workflows with GitHub Actions and CI/CD pipelines, improving code quality using code conventions such as ESLint and making deployment on Firebase Hosting smoother and faster.

Skilled at building web services like RESTful APIs and microservices with Express and NestJS respectively, leveraging tools like databases such as Postgres and MongoDB and transporters such as NATS for communication among microservices. Furthermore, skilled at building Desktop Apps using WPF and Entity Framework.

WORK EXPERIENCE

Software Developer, AndarT Mar 2023 – Present
Rionegro

Enhanced user experience, integrated accessibility standards and improved security on our websites, leading to an increase of visits by 20% and website interactivity by 15%.

Wrote clean, scalable and modular code-bases using React, Next.js, Svelte, TypeScript and TailwindCSS, following best code practices and development conventions, as well as performing unit tests using React Testing Library and Vitest to ensure code quality and maintainability.

EDUCATION

Academia Senior de Informática Jan 2023 – Dec 2024
Técnico Laboral en Sistemas de Información y Comunicación Rionegro

Created projects to solve local necessities, such as inventory management systems with React, NestJS, and Postgres and chat applications using Express and Socket.io.

Graduated as one of the students with high grades during the entire career as well as one of the students with best internship performance during practice evaluations.
